Ideate

Team Rinnegatos
Jessica, Niki, Melissa, Ethan

Problem

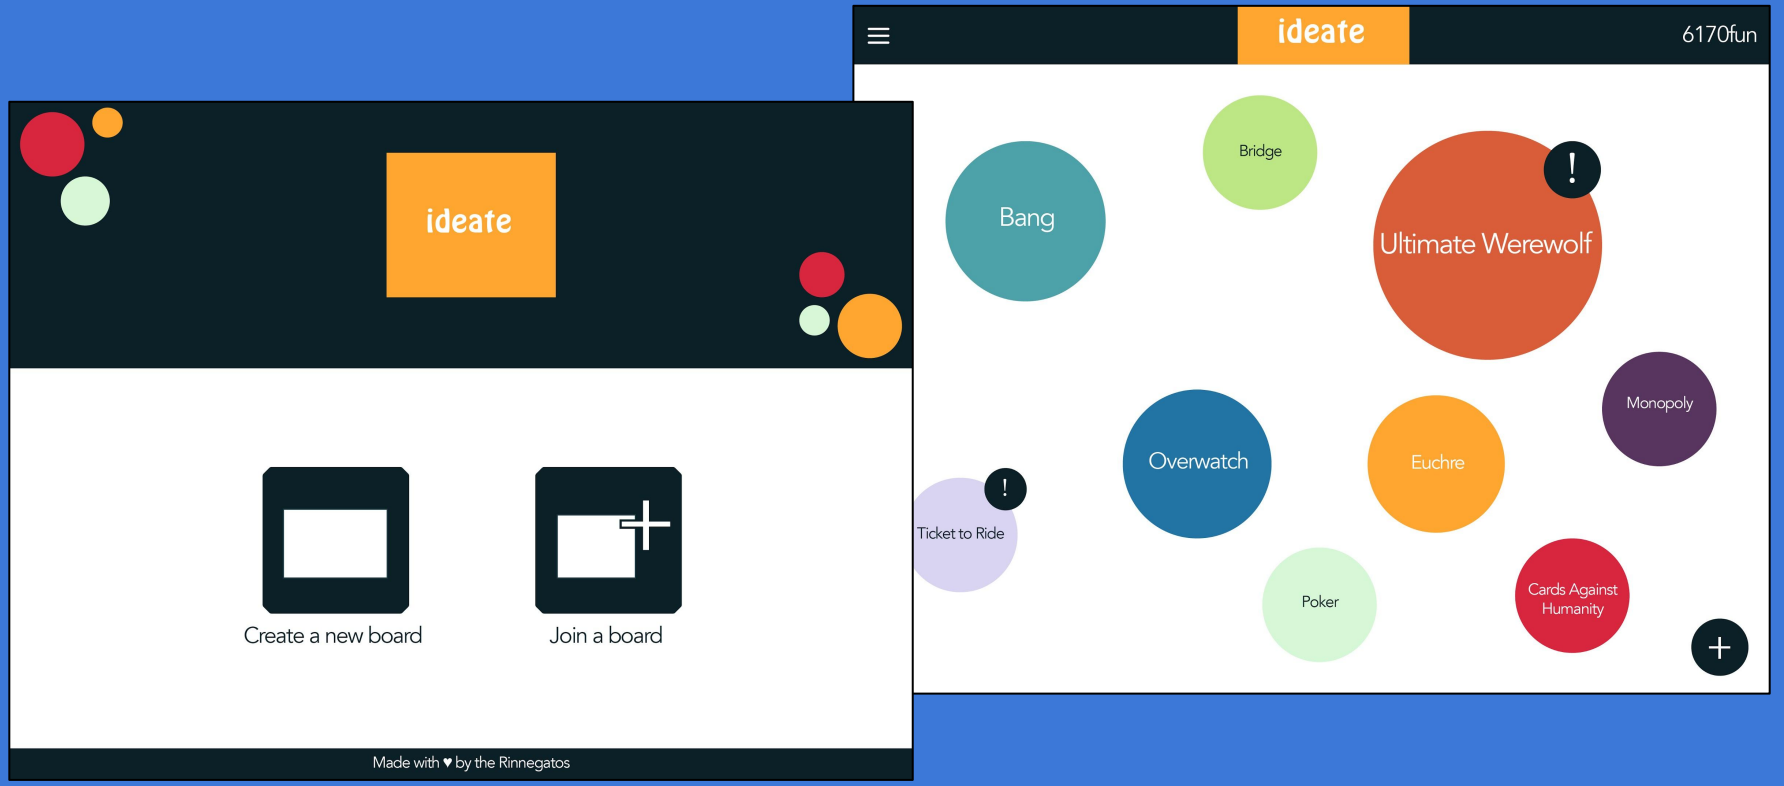
During meetings, many voices often don’t get heard.

This can be because of several reasons:

- Some people are shy or have a quiet voice
- Issues of seniority between group members
- Unconscious biases towards certain types of people
- Not enough time for everyone to talk

Ideate solves these problems by allowing everyone to share their ideas.

Solution



ideate
Create a new board
Join a board
Made with ♥ by the Rinnegatos

Ultimate Werewolf
Monopoly
Overwatch
Euchre
Ticket to Ride
Poker
Cards Against Humanity

Key concepts

Idea

- Lets users anonymously propose solutions to a topic
- Ideas are anonymously submitted and appear in front of everyone in the group on the group's Board

Board

- Allows a group to consolidate all their ideas into a single location
- Users submit ideas to a Board, which then displays these ideas and their popularity as users vote on their favorite ideas

Risks

Colliding ideas

- Two users might submit the same idea
- Let the creator of the board delete ideas to counteract this

Misuse of anonymity

- All anonymous systems have built-in risk, especially in settings like high school classrooms…
- Let the creator of the board kick a person that submitted a certain idea, but never reveal the identity of that person

thanks
