Agenda

Topic	Description
MVP demo	Show a live demo of the MVP to Kim
What's next	What should be the immediate goals we should each try to accomplish for our portions of the project?
Addressing design feedback	Discuss feedback on our design document with Kim to determine what should definitely be updated for our design doc revision
Scope of project	Discuss how we feel about the scope of our project, what features we feel will take too much time to include and which should definitely be included, etc.

Progress Report

Task	Status	Comparison to milestones of the project plan / goals set at previous meeting
Design of pages	Done	On track
Database	Models for MVP functionality should be finished - possibly need to iron out a few more bugs as they come up.	On track
Routing	Endpoints are in line with MVP functionality, skeleton code for the rest of the functionality	On track
Components, Actions, and Views for pages	MVP finished - styles can be updated to final design, pages cleaned up	On track
Components, Actions, and Views for ideas/board	MVP finished - redesign board to be circular design and look into animations/circular menus?	On track

Meeting Minutes

Mentor discussion and advice
-

New ideas
- Add rotary menu to bubbles to be able to add comments/upvotes/etc
